

• DINING SERVICES CHANGES

Fandray announces new plans

Beth Plevyak Flyer Staff Writer

Along with the elimination of the Crossroads next year, several other changes may occur on campus to better cater to the interests of the students.

According to Director of Dining Services, Jane Fandray, Powell Hall, which serves as the location for the Crossroads, will be torn down in Jan., and the nightclub will not be relocated due to a lack of space. Certain events that have been held in the pub, such as concerts and swing-dancing lessons, will be held in alternate locations, such as the Wicomico Room in the Guerrieri University Center.

Yet, until January, the Crossroads will only be a venue for groups and organizations, and will no longer be open for Crossroads' sponsored events. Fandray also said that during the Crossroads' final semester, food service will be provided on an "as needed" basis.

"I am convinced that the programming and the food service bear no relationship to each other at all," said Fandray.

In addition, the Sea Gull Stopn-Shop will close and, according to Fandray, plans to replace the convenient store with a coffee house are pending. Starting yesterday, and until the end of the semester, all items were priced at 75 percent off.

Set up much like a Starbucks, the coffee house would offer flavored coffee, smoothies and various bakery items. Fandray hopes to equip the house with couches and books to create a comfortable and relaxing atmosphere. Normal hours would be from about 12 p.m. to nine or 12 a.m..

Yet another provision involves the removal of the Baker's Basket, located in the Gulls Nest. In place of the bakery, Fandray mentioned the possibility of opening a bar.

"Having the alcohol as a part of your meal is a lot more responsible," said Fandray. Although nothing is

The Crossroads Pub will be eliminated as of January, 2000 to make room for the new science building.

definite, bar regulations may limit the number of drinks individuals are able to purchase at meals.

With the possibility of a bar adjacent to the Gull's Nest, the Gull's Nest hours will be extended until midnight, and may be open on weekends.

Fandray hopes to finalize these plans by the fall, and is looking for interested students who want to be a part of the planning process to join her summer advisory board. For more information, call dining services at ext. 3-6105.

Hepatitis C: Silent and Deadly Raising awareness of the silent killer

Jen Abbatiello Editor in Chief

After the turn of the century, this little-known epidemic is expected to take more human lives each year than AIDS. Although it is finally decreasing in the number of infections, the number of people becoming ill due to the disease is rising. The epidemic is called Hepatitis C and, unlike its relative, hepatitis A and B, people rarely get sick

when first infected with the virus, leaving them completely unaware that they carry it.

Much like the more well-known AIDS, Hepatitis C is transmitted through shared drug needles,

sexual contact, exposure to blood and even snorting cocaine. Also, mothers can pass the disease to their babies during birth. Blood transfusions prior to 1992

are also another way the disease has been spread. In a study performed in June 1998, there were between 28,000 and 180,000 infections per year.

Symptoms of this epidemic are

Symptoms of this epidemic are not as clear as most illnesses. Generally, there are no acute indicators like fatigue, abdominal or vomiting. Instead, the microbe

pain, or vomiting. Instead, the microbe unknowingly damages the liver, and can

Spirituality movement comes to SSU

Teresa Piekarski Flyer Staff Writer

THE FLYER MAY 11, 1999

Next year, spirituality is expected to be a major topic at SSU. A been discussing, for over a year, the role of the spiritual in academic life. The fall semester of 1999 is the anticipated kickoff for the movement.

support system in their home community such as churches, families and religious groups, which have provided direction throughout the development of their or another. But what spiritual lives. However, upon their arrival at SSU, students encounter a situation where few or none of the supports are available.

"In universities, we train and educate without much attention to going beyond the formal quest for knowledge, which is objective and scientific. We forget the emotions, the feelings and the Center for Conflict Resolution.

This lack of spiritual direction problems and increased anxiety, as reported in the Alcohol Task Force

With the environment in sad shape, people starving, and war all over the world, many wonder why our planet is the way it is. With all of the atrocities in the world, people search for answers to questions, such as what is the meaning of life and why has our civilization become what it has.

The committee discussions have raised the issue of the responsibility of the university, to take seriously and provide an academic response to these deep aspirations and struggles that emerge as students engage in spiritual

To help the committee gain perspective on this issue, Bosserman attended a national conference last Sept., held at Wellesley College. With over 800 institutions of higher learning present, the conference's theme was "Education as Transformation: Religious Pluralism, Spirituality and Higher Education."

At the conference, Bosserman learned more about the spirituality movement sweeping over the country. The movement, as described by Bosserman, "is a general desire on the part of more and more students across the whole United States, to tap into an area of their lives which they have put on hold for quite a while."

Dr. Andrew Pica, professor of physics and vice-chair of the committee, added that the movement is "a growing

awareness and a growing consciousness particular spirituality, or for any compassion and patience are realm that we are so caught up in."

would say more than three-fourths to other humans in ways that you do not another's virtues and values. believe that we have a soul; that we are normally think about," said Pica. of mind, body and spirit. We take care of our minds. We go to

Most students have a type of school. We are intellectual. Some of us take care of our bodies to one degree about the spirit? What attention do we really pay to this third part of our three-part being when, in fact, as most religions believe, that

is the part that is going to be eternal?"

addressed within the community.

for students can result in behavioral committee feels that the university should not become the advocate for any humility, reverence, carefulness, able to save ourselves," Pica said.

and, at the same time, religions," Pica said.

In response to this question, the committed to their own ideas of this Aug.. values that are perhaps very deeply committee would like the university spirituality, to engage in thoughtful imbedded in our lives but we have community to become involved in a dialogue. This movement strives to "get activities, the committee hopes to raise pushed them aside," explained chair of discussion of how spirituality and people to open up and begin to new awareness. "We are trying for a new the committee, Phil Bosserman of the spiritual matters might be appropriately understand each other. Through consciousness for the next millennium, understanding comes ultimately, because it is only when the human race In addressing this issue, the hopefully, love," said Pica.

on the part of more and more people that definitive notion of spirituality as a recommended by most spiritual there is something beyond this physical whole. "Spirituality is different for traditions. Even if people could not every individual person. You really have explicitly share spiritual beliefs or Pica continued, "If you ask to find your own spirit. But, once you practices, they most often would be able group of SSU faculty and staff have most people that belong to a religion, I find your own, you really are connected to recognize and learn from one

"People have to realize that the As Bosserman noted, "The idea entire human race is really one - that we is not to put anybody are of one spirit. That spirit is love. New student experience options

Kimberly Westlund Flyer Staff Writer

All incoming freshmen are required to fulfill the new student experience requirement. The most popular way to fulfill this requirement is the classroom option; however, many other options are available, including five unique outdoor options.

These outdoor options include Algonquin, Nantahala, Acadia, sailing, cycling and canoeing combination. These five trips take place each summer. All five cost money; however, transportation, food and most of the equipment the trips require is provided by the school. The experience these trips provide are also well worth the cost

Dave Brown, Director of Campus Recreation and Outdoor Orientation, speaks positively of the outdoor options.

"I believe outdoor orientation programs are some of the best ways for new students to begin their college years," said Brown

Brown has been involved in the Algonquin trip, which was first introduced to SSU in 1983, for ten years adventure as they cycle in ME. Like the and counting. The Algonquin option other trips, Arcadia also has peer consists of a trip to Niagra Falls as well counselors who introduce the new as canoeing and camping in Algonquin Park in Canada on various lakes. Each session consists of approximately 40 students, and though they break up into run by faculty and students at SSU. All two groups while in the park, the trip to students are welcome to apply for peer Niagra Falls and the long car ride there counselor positions. The application

Hepatitis C epidemic

HEPATITIS from page 1

emain dormant up to 20 years before mptoms even emerge.

This means that people can arry the disease for a long time without can spread it, do more damage to their inking alcohol; and live a lifestyle that av not be the healthiest

Currently, there is no vaccine or Hepatitis C, but there are a few drugs hat are used to treat the disease. nterferon is one treatment option. Yet, nterferon's unpleasant side effects of lu-like symptoms and depression, add to the low success rate of the drug. In addition, Interferon clears the virus from the bloodstream for only about 20 already caused by the hepatitis.

Dr. C. Everett Koop, of the American Liver Foundation, strongly urges the Advisory Committee on Blood Safety and Availability to place more stress on the tremendous impact of the Hepatitis C epidemic. In his letter, even knowing it. At the same time, they posted on the Internet, he said, "This epidemic poses one of the most serious iver through other behaviors, such as public health crises faced in this century - the threats of which will be even more serious as we enter into the next

The most important measure for people to take, is to get tested for this hidden disease. Then, those infected with the epidemic can take the appropriate health steps and live a more cautious lifestyle, that caters to protecting the body from any more damage than that

May Commencement speaker chosen

Office of Public Relations Special to The Flyer

THE FLYER MAY 11. 1999

It was an ordinary mid-term during her sophomore year, another exam lost amidst the constant barrage of papers, presentations and tests that mark college life. But Janene White, SSU's 1999 senior commencement speaker, remembers this one very clearly. Dr. Gerald St. Martin of the Modern Languages Department mysteriously entered the room and distributed a sheet containing the exam's single question: "Explain the significance of windows and doors in Albert Camus' The comfortable sometimes, and we forget to

A legend in Denver

Lenny Mierzwa Flyer Sports Writer

THE FLYER MAY 11. 1999

On Apr. 13, John Elway sat in his home with his father, Jack, and made the decision to call it quits. Elway then contacted the Denver Broncos' owner Pat Bowlen, with the news. A press conference was scheduled on Wednesday Apr. 21 in order for Elway to tell the public his decision. He was preparing to do so when a freak accident took place in the Denver suburb of

On Apr. 20, 14 students and a teacher were killed in a shooting spree at Columbine High School. Elway made the decision to postpone the press conference in order to show respect for the students and teacher that lost their lives in this devastating event. This was an act that showed his love for the city of Denver, but most of all the kind of person Elway really is. Elway laid in bed the night of the shooting and told his wife, "It just makes you take a moment to realize how blessed we are. I don't even know why I've been anguishing about this retirement decision."

As Elway entered his 16th and final season, he was plagued with injuries to his hamstring, lower back and ribs. This was something new to Elway, who had only missed 10 games prior to this season. His back-up, Bubby Brister, filled in for Elway and led the team to a perfect 4-0 record to start off the season.

Brister was not shy to say that he knew Elway was eager to play, and he would be back in the starting position as soon as he could. Brister said, "It's his team. He wants to get out and play. He's the most competitive guy I've ever

met. If he was 85% or 90%, he wasn't going to wait until he was 100%." In fact, Elway did return before he was completely healed, and helped lead the team to a 14-2 regular season record. Elway said after his return, "I was walking on eggshells. I was afraid something would happen before I got out on the field."

Elway had the chance to be the first quarterback to lead his team to three consecutive championships, but obviously just could not do it anymore. He said, "What it came down to was that, physically, I just didn't think I could do it anymore."

Elway's list of records and awards speak for themselves. Elway's era includes six AFC Western Division titles and two Super Bowl trophies. He holds or is tied for 53 Bronco regular season records. He led his team to 47 fourth quarter comebacks; 148 NFL victories; 51,475 passing yards and in his final game, earned the Super Bowl MVP award.

In what proved to be his last home game, Elway was fittingly victorious. After the game, Elway acknowledged his appreciation for the fans by taking a victory lap around Mile High Stadium. He received a standing ovation from the fans and gave his "so long" salute to the people that have stood behind him through thick and thin.

Snapshots...

Arthur W. Perdue Stadium on Saturday, May 8. SSU split the doubleheader, winning the first game, but losing the second in extra innings.

Elway leaves football on top, having won the past two Super Bowls.
